

# Allergy Standards Ltd. INTERNATIONAL CERTIFICATION. EVIDENCE BASED. INDEPENDENT TESTING.

When you purchase allergen reduction and environmental control products for your family and home, remember to look for the **asthma & allergy friendly™** Certification Mark.

Only products that carry the **asthma & allergy friendly™** Certification Mark have been scientifically tested by **Allergy Standards Limited**. They have been certified to help reduce exposure to allergens and irritants, provide increased environmental control and withstand routine cleaning and care guidelines according to standards adopted by the **Asthma & Allergy Foundation of America**.

A plan for reducing exposure to allergens and irritants in the home requires a multi-faceted approach. A wide variety of products have been certified **asthma & allergy friendly™** including:

- Pillows
- Comforters & Mattress Pads
- Encasements
- Toys
- Vacuum Cleaners
- Washing Machines
- Air Cleaners
